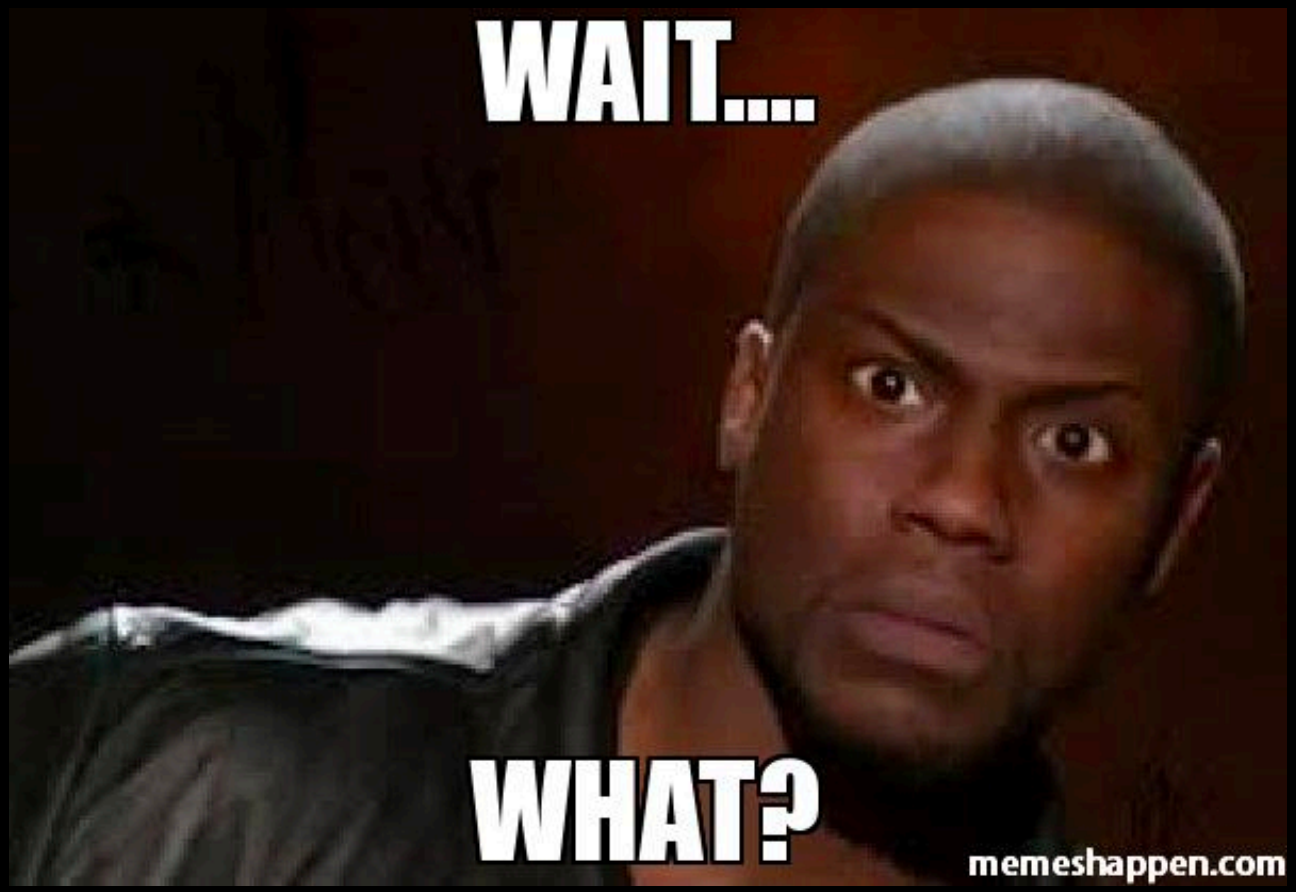
Don’t cut off internet access to your accounts
so that your infrastructure cant update

If you do TELL YOUR TEAM!!

4

Don’t cut your internet access and then ask your juniors (who don’t know any better) to install agents manually.



WAIT....
WHAT?

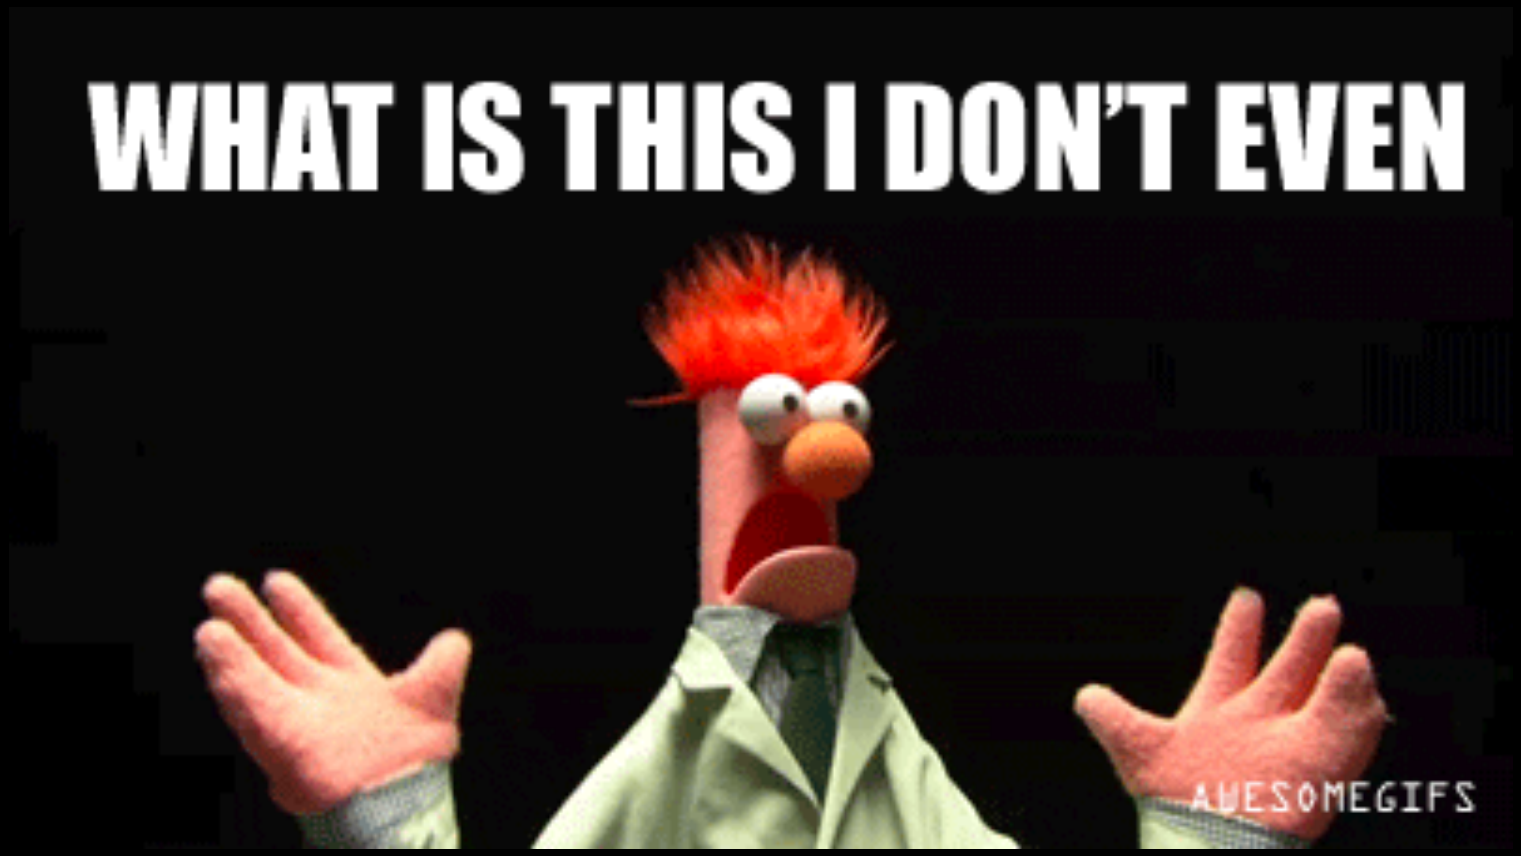
Don’t make some fancy security group then leave:

“all ports @ 0.0.0.0/0”

OPEN!!



WHAT IS THIS I DON'T EVEN

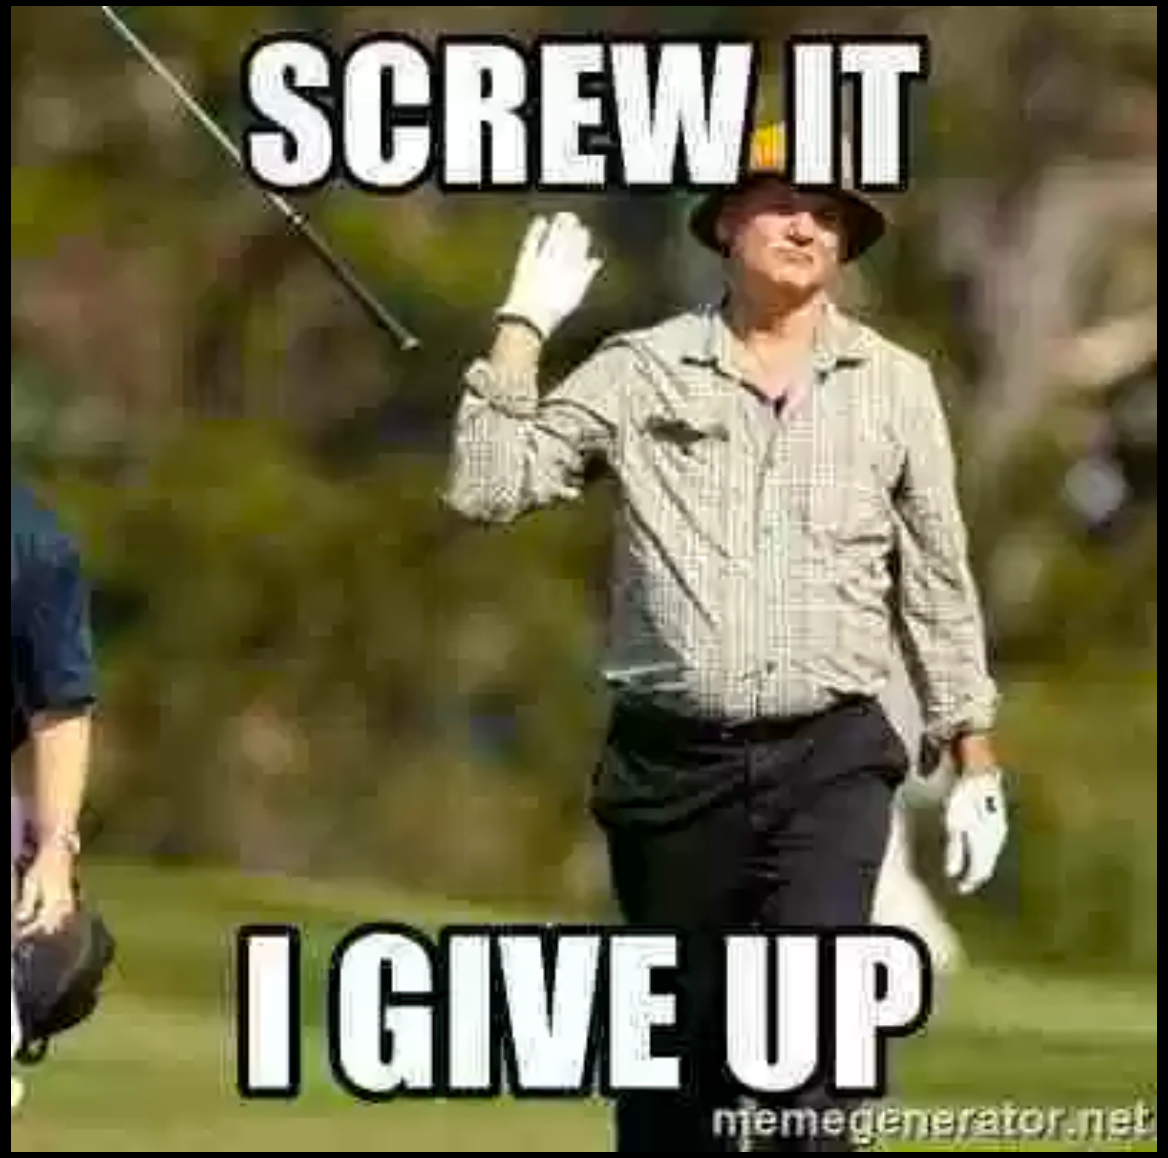
Don’t send usernames and passwords
in emails, IM’s etc
&
Definitely don’t label them:
“username” ”password”



SCREW IT
I GIVE UP
